Introduction

MVS Pharma GmbH is an innovative biotech and pharmaceutical start-up company, dedicated to help people take care of their health in the best way possible! We are based in Germany, but have branches in India and Bulgaria. Furthermore, MVS Pharma has been developed out of the founder's passion to help people stay healthy and protect themselves against viruses.

Rainer Proksch

MVS PHARMA GMBH
FOUNDER & CEO

MVS-Pharma is currently working on several projects: *the development of Virudol® Antiviral Mouth and Nasal Spray; high-quality, all-natural supplements, including a **revolutionary MVS Omega-3, with 17-step revolutionary oxidation protection**, and a fat-burning product LipoShin, to support a healthier lifestyle rooted in the science of well-being and safety.*

Our Products

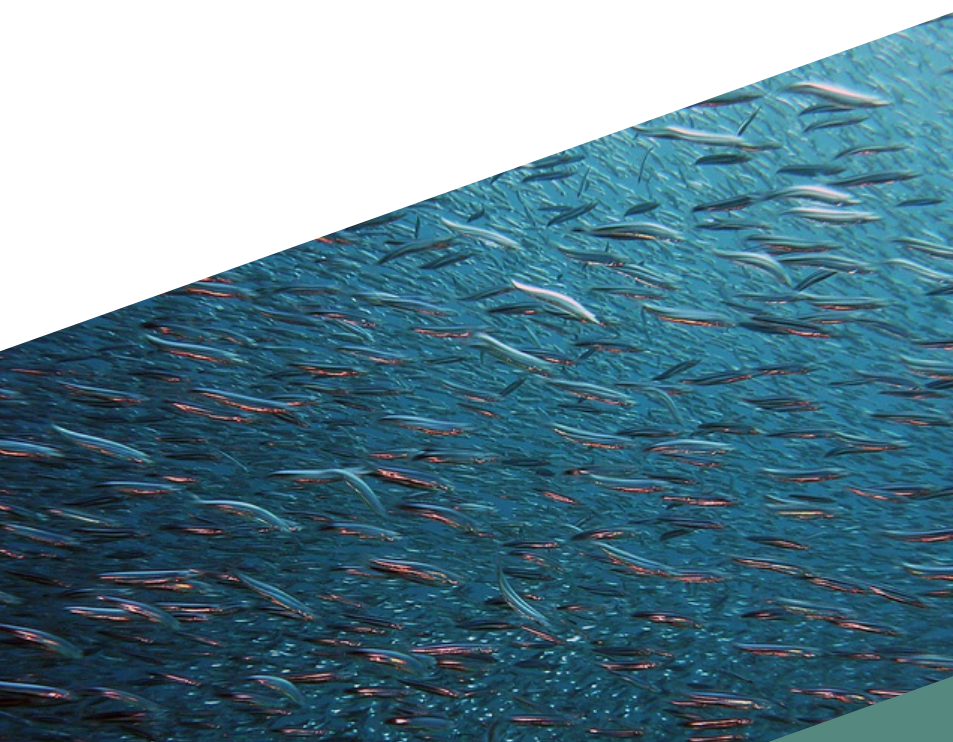

➔ MVS Omega-3

A high-purity, scientifically engineered Omega-3 supplement based on re-triglyceride form, featuring exceptional oxidation protection and manufactured under pharmaceutical-grade conditions.

"We didn't just improve Omega-3 – we rethought every detail. Our goal wasn't purity alone, but real-world stability, highest bioavailability, maximum freshness, and effectiveness – all the way to the last capsule." – Rainer Proksch, Founder of MVS Omega 3

For more in depth information about this revolutionary product, visit our [MVS Omega-3 official product page](#).

- ➔ 92% re-triglycerides (rTG)
- ➔ Totox value of 4
- ➔ Argon-protected production, storage, and packaging
- ➔ Ultra-thin capsule with 10:1 content-to-shell ratio
- ➔ Visible freshness – no flavor additives required

Our Products

➔ Virudol® Air

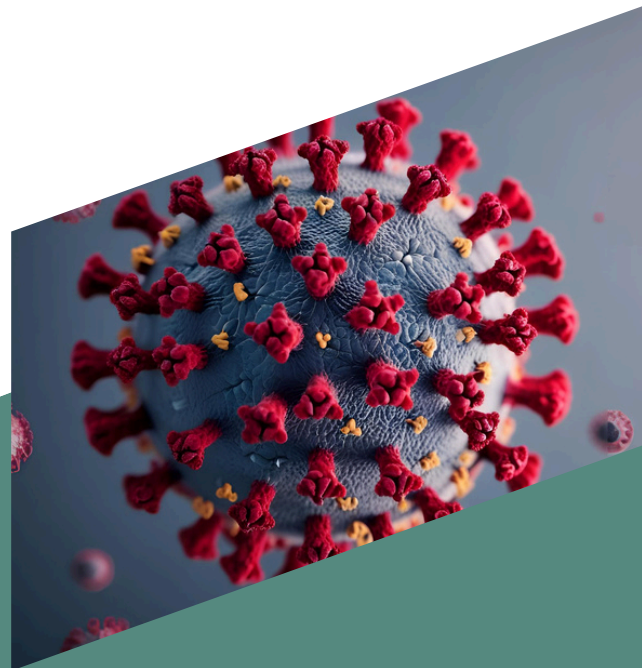

Virudol® Air is a room protection system that can individually be adapted to the size and proportions of the space to be protected. Virudol® Air keeps pathogens outside the body. Viruses and other infectious germs that are transmitted through aerosols are inhibited.

Virudol® Air can be established in public transport, at large events, in hospitals, doctor's offices, and open-plan offices. The viral load caused by respiratory viruses such as influenza, SARS-CoV-2, and others is specifically reduced thanks to our protection system.

This prevention will help improve the health of the population.

- ➔ 100% natural substances
- ➔ Innovative system, developed by experts to inhibit airborne viruses
- ➔ Virudol Air will be able to prevent viral transmission indoors

For more in depth information about this revolutionary product, visit our [official Virudol product page](#).

Our Products

➔ LipoShin – All Natural Fat Burning Supplement

The active ingredient of our fat burning all natural supplement is Hesperidin. This is a promising natural compound with potential benefits for fat reduction, improved metabolism, and overall health. Hesperidin may enhance fat oxidation, which is the process by which the body breaks down fat to use for energy.

Along with a variety of other ingredients designed to enhance absorption, improve bioavailability, and support the overall health benefits of the supplement.

Hesperidin inhibits the expression of lipogenic enzymes such as fatty acid synthase (FAS) and acetyl-CoA carboxylase (ACC), both of which are involved in fat synthesis. By suppressing these enzymes, hesperidin may reduce the formation of new fat stores in the body.

➔ No Side Effects

➔ Enhanced Bioavailability

➔ Sustainable and Environmentally Friendly:

➔ Trusted and Validated

Our company Principles

Raw Materials

We source our raw materials almost exclusively from India—renowned for its pharmaceutical heritage and medicinal plant expertise. We only work with producers who prioritize tradition, sustainability, and purity, and who are regularly certified.

Manufacturing

We partner solely with certified manufacturers committed to careful processing and proper storage. Our on-site team conducts regular inspections to ensure strict compliance.

Production

Our production partners combine decades of expertise with cutting-edge technology and scientific research. Even contact materials like capsules follow our Nature First philosophy for purity and safety.

Quality assurance

We uphold strict quality controls at every step—from formulation to packaging—ensuring safety, consistency, and compliance with Good Manufacturing Practices.

Our own team of experts

Our in-house medical and pharmaceutical experts continuously review scientific literature to innovate, improve, and keep all products up to date with the latest findings.

Research & development

Our team develops new product formulas based on in-depth research, carefully analyzing interactions and selecting optimal ingredients for efficacy and safety.

Our company Principles

Partnerships

We collaborate with leading labs and clinical study providers worldwide to validate our findings, enhance safety, and ensure measurable results.

Collaborating with experts

We engage with universities, researchers, and health organizations to share knowledge, conduct joint studies, and respond to healthcare challenges together.

Accessible & Affordable Products

We translate scientific findings into easy-to-understand information and accessible pricing. Our goal: deliver high-quality, safe, and fresh products at a fair cost, free from harmful substances.

Innovation

We invest heavily in product innovation and scientific development—extending our Nature First approach beyond ingredients to include capsules, additives, and packaging.

Environment & Ethics

We commit to eco-conscious production by minimizing waste, avoiding plastics, and reducing pollutants. Our ethical business practices emphasize transparency, integrity, and regulatory compliance.

Our Team of Experts

➔ **Dr. Eva Kuennemann**
Biologist with a PhD in natural sciences

➔ **Dr. Michail Georgakis**
PhD in Chemical Engineering and Computational Chemistry

➔ **Dr Disha Trivedi**
PhD in Molecular Genetics and Biotechnology

➔ **Finn Ambrosius**
Medical Engineer

➔ **Smitha Krishnan**
Managing Director of MyVitaminSolutions Pvt.Ltd.

➔ **Riya Jayapal Roja**
Senior Pharmacist

➔ **Natascha Klenk**
Projects Coordination, Sales and Purchase Manager
